

September 4, 2013

U. S. Environmental Agency

61 Forsyth Street

Atlanta, Georgia 30303 8960

Attention: Kenneth R. Lapierre

In response to your letter of August 30, 2013 regarding Freedom of Information that had been released to a North Carolina Congressman containing medical information for my family. This information was given freely by me and I was not told that anything that was discussed was confidential. Our medical history is common knowledge as everyone knows of our medical condition.

I feel that what has transpired with the contaminated site near my home and what has and has not been done by EPA Region IV should be released to anyone that may be of help in getting this site cleaned up. It has been twenty three years and is time for a clean up to be done. I asked our Congressman for his help in this matter and feel he needed the 62,922 pages that had been held from us. A release of information was signed by me in 1999, for your records please see the release below.

Thank you,

TO ANY AND ALL INTERESTED PARTIES;

I, DORIS RICE, DO HEREBY, FREELY AND VOLUNTARILY WITHOUT ANY DURESS, WAIVE MY RIGHTS TO PRIVACY AS IT PERTAINS TO AND LIMITED TO ALL MATTERS WITH THE CTS OF ASHEVILLE SUPERFUND SITE AND THE PREVIOUS MGRGC SITE.
